

GEG Celebrates Galaxy Macau's 10th Anniversary with the Community and Team Members

May 26, 2021 – Upholding its philosophy of “what is taken from the community is to be used for the good of the community,” Galaxy Entertainment Group (“GEG”) has been fulfilling its corporate social responsibilities through a wide range of initiatives while developing its business. In celebration of the 10th anniversary of the opening of its flagship property - Galaxy Macau™, on May 15, GEG invited families from the Macau IC2 Association and the Love and Joy for Macau Children Association for a treasure hunt at Galaxy Macau, during which participants explored and experienced Galaxy Macau's different world-class facilities, and enjoyed a joyous day with GEG. As well, starting from May 11, GEG also launched a series of celebration activities to thank its team members for their efforts. Joined by GEG's management, team members were showered with the company's appreciation in different ways.

Over 50 members from the associations were joined by GEG volunteers for the treasure hunt at the Grand Resort Deck on the day of Galaxy Macau's 10th anniversary. The activity brought lots of joy and laughter to the participants, who were tasked with different delightful challenges, including solving the various idioms and finding the different plants and natural resources that are located at the Grand Resort Deck. The participants were amazed to learn from GEG volunteers that Galaxy Macau had the largest green landscape in Macau's integrated resort industry. Following the treasure hunt, the group visited other popular check-in locations inside Galaxy Macau, including the Diamond Lobby where the participating children enjoyed the “Fortune Diamond 10th Anniversary Special Edition” show and watched in fascination as the 3-metre tall diamond descended into a roulette-designed fountain. In addition, they also reviewed Galaxy Macau's spectacular 10 years at the anniversary-themed installation at the Diamond Lobby and took a group photo at the Galaxy Macau 10th Anniversary Garden located outside the property. Their wonderful journey to Galaxy Macau ended with the special 10th anniversary refreshments that GEG had prepared for them at the Cafe de Paris Monte-Carlo.

As a renowned world-class integrated resort, Galaxy Macau's key to success lies in the collective efforts of the company's team members. To thank its team members for their valuable contributions, GEG has organized different activities for several weeks to share the joy of Galaxy Macau's 10th anniversary. To commend team members for their enthusiasm and dedication, GEG issued 10 years or 15 years of long service certificates to almost 5,000 team members who have been working at GEG for 10 years or more. Their long service demonstrates a strong sense of belonging to GEG and its philosophies. In addition, GEG organized family tours to introduce Galaxy Macau's back-of-house areas to team members' families, which were participated by more than 200 team members from over 30 different departments and their family members. Through the family tours, GEG hopes to share the joy of the anniversary,

deepen their family members' understanding of their working environment and promote family relationships. Other internal celebration activities included: "Your Best Moments at Galaxy Macau" Photo Campaign, in which team members uploaded their photos taken at Galaxy Macau to get the chance to win prizes; Asian Heart Ambassadors appreciation events; the "Anniversary Feast" where celebratory dishes were prepared and GEG executives served team members; as well as a host of game booths and instant photo shooting areas at the back-of-house.

As the world's leading integrated resort operator, GEG has received many esteemed awards and recognitions for its facilities and services over the years. GEG is progressing its plan in Cotai, and hopes that its team members can continue to shower guests with GEG's unique Asian Heart service and high-quality hospitality experience. Meanwhile, GEG will continue to contribute to Macau's development by promoting the city as a World Centre of Tourism and Leisure; launch diversified activities to enhance team spirit, spread care to different sectors of society, and help promote the sustainable development of the city.

– End –
